

# Sketching

(Formerly Pen & Ink)

1. Know three types of pens you can use to create a “Pen & Ink” sketch.
2. Know why paper texture is important in choosing your sketch paper.
3. Prepare your own chart, showing the five basic sketching strokes.
4. Using your choice of pen, sketch a fence post with a knothole.
5. Sketch a fence gate from looking at a real one, using the five strokes you have learned.
6. Create an original scene using a tree with leaves, a road, a fence, and something special to you. Make it your impression, not an attempt to create a photo perfect reproduction.
7. Know how a finished sketch should be protected.
8. Know how to clean your sketching pens correctly.
9. Give at least two safety rules concerning the use and handling of Pen & Ink materials.
10. Know how to store your tracing paper and carbon papers to keep them neat and clean.
